solutions to suit your business

what we do...

- We are able to offer a consultancy service based upon our considerable in depth knowledge of Opera and Foxpro.
- We bring with us the experience gained from over 8 years of tailoring Pegasus Opera.
- We are able to develop software systems specific to your industry, such as order tracking processing solutions that integrates with your accounting package.
- We know that all Opera modules can be tailored and we know how to do it - we have provided solutions varying in degrees of complexity and integration with Opera to 100's of very satisfied users.
- When we are asked "With Opera, can you....?". Our response is usually "Yes".

- We have a proven pedigree, most of our new clients are gained on recommendation from existing customers.
- We can fix corrupted Opera data and correct mis-posted ledger entries.
- We aim to build long term relationships with businesses such as yours.
- We provide support and training for your business systems.
- Our customers like us because we offer an excellent balance of programming expertise with the ability to communicate effectively.
- We are able to develop ecommerce and internet applications specifically for your business.

what we don't do...

- Let you down.

what should you do...

- Should you feel we could help your business please contact us, we would be happy to meet you or for you to see our software in action.
- Acton Gate Systems prides itself on maintaining both a professional and personal relationship with its clients. Our philosophy is to understand what is important to each client, recognising that all companies differ in terms of their culture and priorities, in order to provide the best possible service.
- We are confident that our clients will provide first class references of their experience of working with us.
